

4-H Bee Club

Are you interested in beekeeping? Or maybe the products you can make with beeswax and honey? We are starting a 4-H bee club! You don't have to keep bees, or even want to keep bees in the future. Just have a desire to learn about bees, beeswax and honey products, or keeping a bee friendly environment!

What: Bee Club Informational Meeting

Where: Dale County Extension Office

When: September 22 at 6:30 pm

If you are interested in this new club, contact the Dale County Extension Office at 334-774-2329 or Rachel Lee, 4-H Regional Extension Agent, by emailing leerach@aces.edu or calling 334-750-2017.

Come BEE a part of the
fun!
